Full List: Desk/Mixer with at least **13** XLR Input Channels and phantom power. **1** x Bass Amp, **3** x D.I. Boxes, **6** x Instrument Microphone, **1** x Bass Instrument/Large Diaphragm Instrument Microphone, **1** x Vocal Microphone, **9** x Boom Microphone Stand (**3** x short), **1** x Drum stool/similar.

Bass player will play additional percussion for some parts of the performance. We are happy to use the same microphone and stand as will be used by Percussionist, or to use a different microphone and stand. Whatever is more convenient for your engineer and venue.

Foldback

Where possible 3 x wedge/stage monitor mixes for left, right and rear of stage.

Smaller Venues

For smaller rooms and venues with fewer desk inputs the following channels can be discarded and the players will either play acoustically or not at all:

Clarinet Microphone – Clarinet/Whistle Player will use one microphone for both instruments.

Cajon Front Microphone

Bongos

Djembe

Bass Drum – Player may opt to use a ‘Stomp Box’ instead, which will require an extra D.I. Box.

Bass XLR Channel – Player will use amplifier only
